Experience (Freelance)

Guide Sikkim Tours and Travels | Link

Measurable Business Impact: Redesigned and deployed a responsive travel booking website that resulted in a ***70% increase in booking inquiries***, a ***34% reduction in early drop-offs***, and a ***14% boost in conversions*** by blending strict UX choices with Google Ads performance insights.
Data-Driven User Research: Audited user inquiry patterns, regional audience behavior, and search queries to discover that 99%+ of active users visited via mobile devices, initiating and executing a strict mobile-first design system strategy.
Information Architecture & UX Laws: Mitigated intense cognitive overload by restructuring flat, complex regional travel packages into categorized, intent-driven sub-package journeys tailored to unique user profiles.
Interaction & Navigation Design: Architected targeted, sitelink-driven navigation flows allowing high-intent search engine users to bypass generic entry pages and land directly onto optimized booking templates.
Visual & Conversion Hierarchy: Enhanced global interface elements including contextual pricing layouts, breadcrumbs, advanced filtering states, and friction-free inquiry forms to streamline the user checkout journey.
Deployment & Analytics Tracking: Built, tested, and deployed the production-ready responsive web application while maintaining continuous setup loops for conversion tracking, click-through rates, and engagement metrics.

About Me

Analytical and impact-driven UI/UX Designer and Product Designer with a strong engineering background in Flutter and web development. Proven track record of leveraging data insights and user analytics to optimize conversion funnels, reduce cognitive overload, and design high-performing mobile-first experiences. Skilled at balancing business goals with user-centric design methodologies

CORE SKILLS & TECHNICAL TOOLKIT
